## SUMMARY

---

Experienced **Cybersecurity Specialist** with over **4 years** of expertise in **penetration testing, security analysis, network security, vulnerability assessments**. Skilled in **network architectures, Windows and Unix systems**, and utilizing tools such as **Nmap, Metasploit, Burp Suite, and Wireshark**. Demonstrated success in safeguarding digital assets and networks through proactive security measures.

## EXPERIENCE

---

### 09/2024 – Present **Cybersecurity Instructor**

#### **Digital Hub and Orange Training Center**

- Demonstrated advanced techniques for packet capture and analysis using Wireshark during live labs.
- Delivered hands-on workshops on wireless network penetration using tools like Aircrack-ng and Eaphammer.
- Provided in-depth training on web application security tools, including SQLmap and Nmap, for vulnerability scanning.
- Guided 50+ students in mastering Bug Bounty platforms, with a focus on HackerOne and Bugcrowd, resulting in improved student engagement and outcomes.

### 06/2023 - Present **Web Application Security Specialist**

#### **Microtech Software Solutions** ↗

- Conducted comprehensive web application vulnerability assessments to identify and mitigate critical security issues, improving application security posture by 35%.
- Performed penetration testing on internal and client-facing web applications, uncovering vulnerabilities such as SQL Injection, XSS, and CSRF.
- Generated detailed vulnerability assessment reports with actionable recommendations, ensuring compliance with industry standards like OWASP.
- Utilized tools like Burp Suite, OWASP ZAP, and Nmap to assess application and network security.
- Developed and implemented security policies for web applications, reducing the risk of exploitation by external attackers.
- Collaborated with developers to patch and remediate vulnerabilities, reducing the average resolution time for high-risk issues by 25%.

### 07/2014 - 06/2023 **System Administrator**

#### **Lamode For Import And Export**

- Implemented and managed Nagios for proactive system monitoring, ensuring 99.9% network uptime.
- Configured and maintained Active Directory for user authentication and access control, streamlining IT operations.
- Optimized file sharing and collaboration using Windows File Server, improving productivity across departments.
- Monitored and analyzed network traffic with Wireshark, identifying and mitigating potential security threats.
- Automated routine maintenance tasks using PowerShell scripting, reducing manual workload by 25%.

### 01/2021 - Present **Freelancer**

#### **Freelancer Websites**

- Delivered penetration testing reports using tools like Burp Suite, Metasploit, and OWASP ZAP to uncover critical vulnerabilities.
- Provided network configuration services, including Cisco router and switch setups, to small and medium-sized businesses.
- Conducted data recovery and backup strategies leveraging Acronis Backup and RAID configurations for clients with critical data needs.

### 01/2013 - 05/2014 **Customer Service Agent**

#### **Etisalat** ↗

- Addressed customer inquiries about products and services, achieving a 95% customer satisfaction rate.

## EDUCATION

---

06/2008 - 06/2012 **Ain Shams University**  
Bachelor OF Commerce

## CERTIFICATES

---

12/2021-03/2022 **Certified Ethical Hacker (CEH) | EC-Council**

[Certificate Link](#)

03/2023 - 05/2023 **Certified Penetration Testing Professional (CPENT) | EC-Council**

[Certificate Link](#)

## SKILLS

---

• Develop reports	Intermediate
• Establish network infrastructure	Advanced
• Implement and manage SQL	Intermediate
• Configure and establish Windows server	Advanced
• Facilitate ERP system usage and management	Advanced
• Operating Systems (Windows, Unix/Linux)	Intermediate
• Cybersecurity Tools (Nmap, Metasploit, Burp Suite, Wireshark ,etc)	Expert
• Security Protocols (SSL/TLS, IPsec)	Expert
• Firewall and IDS/IPS	Intermediate
• Ethical Hacking	Advanced
• Perform network and web penetration testing & Network Security	Advanced
• Penetration Testing & Vulnerability Assessment	Advanced
• CTF Player	Intermediate

## COURSES

---

CCNA	Udemy
MCSA	Udemy
Powershell	Code Red
Hnads On Java Script	Code Red
The Complete Mobile Ethical hacking Course	Udemy
Malware Development In Windows	Udemy
Mastering SQL Injection - The Ultimate Hands-On Course	Udemy
Wireshark: Packet Analysis and Ethical Hacking	Udemy

## LANGUAGES

---

- **English:** B2 (Independent User)
  - **Arabic:** C2 (Proficient User / Native)
- 

I Hope That My Qualifications Meet Your Needs
