EDUCATION

Bachelor's degree in communication & Electronics Engineering

2018 – 02/2024

Faculty of Engineering , Higher Technological Institute

GPA: 3.1

COURSES

CCNA 02/2024 – present

python 08/2023 – 09/2023

Penetration Testing 06/2023 – 07/2023

Red Hat Certified System Administrator (I,II,III) 07/2022 – 09/2022

Analog and digital Electronics 07/2020 – 08/2020

Arduino Uno Course 07/2019 – 08/2019

SKILLS

Technical Skills

- *Microsoft Office | Word, Excel, PowerPoint
- * GNS3
- * Packet Tracer
- * VMWare
- * emu8086
- * MarieSim
- * Linux & Kali linux
- * pycharm
- * programming language (Python , C++)
- * MATLAB
- * centos
- * proteus
- * PCB Design

Soft Skills

- *Team Working
- *Leadership
- *Ability to learn new things
- * Time management
- * Decision making

PROJECTS

Secure Network Infrastructure,

10/2022 – 06/2023

Graduation Project

A complete network structure for a startup company with two branches in two distinct cities, featuring a low budget and high availability. Grade:A

Mail Server, iRedMail (Linux)

09/2022 – 09/2022

iRedMail is an Open Source Mail Server solution designed to ease deployment, Configuration and general day-to-day mail operations. iRedMail runs on Linux, FreeBSD and OpenBSD systems.

Smart Home

10/2019 – 11/2019

- A smart home application has two modes: admin mode and guest mode.
- Admin mode allows you to control RGB, servo motor, air conditioning according to the ambient temperature, TV, and 4 rooms on and off.
- Guest mode, allow 4 rooms on/off.
- Used: Keypad, LCD, LM35 Sensor, Buzzer, LEDs, LAMP, Servo Motor, HC-05, Arduino uno.
