SUMMARY

I have been graduated from faculty of Computer science with good knowledge in software development and design. I am also experienced in coordinating with stakeholders.

EXPERIENCE

Front-End Developer internship in the sparks foundation

June 2022 - August 2022, egypt

- Collaborated with other Front-end Developers of the Your Career at Sparks developer team, function closely collectively with Back-end developers and Solution Architects of the project, and participated in the rewrite of Your Career at Sparks front-end from Aurelia to angular. This effort was completed successfully by the team through weekly meetings and daily communication.
- Participated in an agile, collaborative environment across software architecture, understanding both front-end and back-end processes, while specializing in the front-end.
- Contributed closely with visual designers to deliver wireframes from conception to implementation, and Back-end developers to ensure tested and production-ready UI code.
- Wrote code for user interfaces, including interactions, responsive layouts, and styling. Utilized and contributed to the W3DS (Design Standards) to produce optimum user experience.
- Experienced in JavaScript, familiar with the latest syntax (min. ES6), with a proficient understanding of Angular and basics of Node.js. Practiced in UI development technologies such as HTML, CSS, Redux, and API usage.
- Developed highly dynamic, interactive and user-friendly interfaces with improved response time by 40% and usability by 30%.

Member STP

January 2020 - June 2020, egypt

- STP is the student activity organization and contributed to organize various events and initiated ideas and implemented to achieve the goal.
- Improved event attendance by 28%, leading to a 20% increase in the profitability of events, and initiated new ideas that resulted in a 24% rise in engagement levels.
- Developed and implemented strategies for storing, sorting and archiving member's information and activities with standardized process and tools.

PROJECTS

Domestic tourism

Graduation project: grade(A+) • January 2022 - June 2022

- Recently, after the outbreak of Covid 19, the world fell into a huge state of stagnation, and thus tourism operations, both external and internal, were halted, and it is certain that this halt has bad effects on the country in terms of economy and employment, which is constantly increasing due to this pandemic.
- One of the main objectives of the project is to facilitate the tourist process for tourists by highlighting the most tourist attractions with a simple mention of their pharaonic or civil history, with the addition of some suggestions for places, landmarks and the tourist program as a whole.
- secondly, facilitating the process of locating these places with the availability of reservation and accommodation processes to make the tourist trip Be more fun and make the most of our dear country.

Online -shop-website

Internship • October 2022 - November 2022

- Online - shop-website: Consumers want to easily compare products by price, reviews, and features and have become more discerning in the product selection process. For almost all product categories, consumers prefer to shop online for greater variety. The only exceptions are essential products like groceries, cleaning products, and over-the-counter medicines and other items like beauty and personal care

INVOLVEMENT

Member

egypt • STP • January 2020 - June 2020

- I provide services to student organizations and provide place reservations, coaching through workshops, one-on-one counseling, and event planning support. Through HornsLink, students can find events, join student organizations, explore opportunities based on interests, and track their hours of service. Students can also work with Student Activities to start a new organization and manage the business operations of the organization.
