Date of birth: 11/8/2000

Objective

- Seeking to work in communication companies specially in network communication and cyber security fields where my skills are evolving and gaining more experience.

Education Courses

Microsoft Certified Solutions Associate (MCSA)

(online November 2024)

- Administered and maintained Windows Server environments (2016/2019) to ensure high availability and performance.
- Configured and managed Active Directory, including user creation, group policies, and organizational units.
- Deployed and managed DNS and DHCP services for network configuration and client support.
- Provided troubleshooting support for server and network issues, utilizing tools like PowerShell and Event Viewer.
- Implemented backup and recovery strategies to ensure data security and disaster recovery readiness.
- Managed and supported Hyper-V virtual machines and IIS for web hosting services.

At national telecommunication institute (NTI):

Completion of the CCNP Enterprise has been achieved.

(online August 2023)

- Troubleshoot and optimize EIGRP (IPv4/IPv6), multi-area OSPFv2/v3, and advanced BGP.
- Manage conditional forwarding, route redistribution, and secure tunneling technologies.
- Implement network security mechanisms and L2 redundancy.
- Configure EIGRP, advanced OSPF, and eBGP for enterprise networks.
- Understand multicast, QoS, IP services, VPNs, and wireless topologies.
- Support secure, scalable network architecture with advanced technologies, network automation, and virtualization.

Gained a good knowledge in CCNA according to codes, standards and learned software that serve this field.

(July 2022)

- Configured a basic configuration for switch and router.
- Configured a security for switch and router.
- Designed a network topology by using cisco routers and switches.
- Designed a network system for smart home using packet tracer.

Education

- Degree: Bachelor of communication engineering, Tanta Higher Institute of Engineering and Technology. (July 2023)
- Grade: Very good.
- Graduation project: Designed a remote control for smart home.

Technical skills

- Packet tracer (professional)
- Gns3 (professional)
- EVE(Good)
- Microsoft Office (Word – Excel – PowerPoint) (very good)
- Strong problem-solving and troubleshooting skills with a focus on optimizing IT infrastructure.
- VMware (professional)

Soft Skills

- Communication (verbal and written) – Problem solving -Team Collaboration-Leadership and Mentoring-Time Management-Emotional Intelligence-Negotiation and Persuasion-Adaptability and Resilience-Conflict resolution

Languages

- Arabic (Native language)
- English (Intermediate)
